UltraHD® Wood Top Care Instructions

Our tops are made with real wood, and while great care is taken to ensure consistent top color and graining, there may be natural variations between finished products. We hand select the wood for every top to ensure the material is undamaged and naturally beautiful. If the wood top is received with excessive damage or splitting, Seville Classics will guarantee replacement of the top. Variations of color, and minor scratches in the clear coat finish will not be reason for replacement.

Restore Shallow Scratches or Chips

The wood surface of this product is finished with a polyurethane coat. If the wood top becomes chipped or scratched, a polyurethane coat can be reapplied to restore a smooth texture and protect from future damage.

Please follow the manufacturer's instruction on the product for application.
