Why Choose an AIRLIFT® Desk?

More people are working from home than ever before. Cubicle walls are coming down as work spaces become more collaborative and as more people become connected socially and digitally. Smart phones and personal electronics are a part of our lifestyle, and we expect our workplaces to cater to them.

What people want is more functionality, more mobility, and more connectivity from their desks - at home and at work.

Seville Classics' AIRLIFT® line of height-adjustable desks aim to address this shift in home and office trends by offering a full spectrum of standing desks in different form factors. Get things done your way with the desk that suits your workspace.

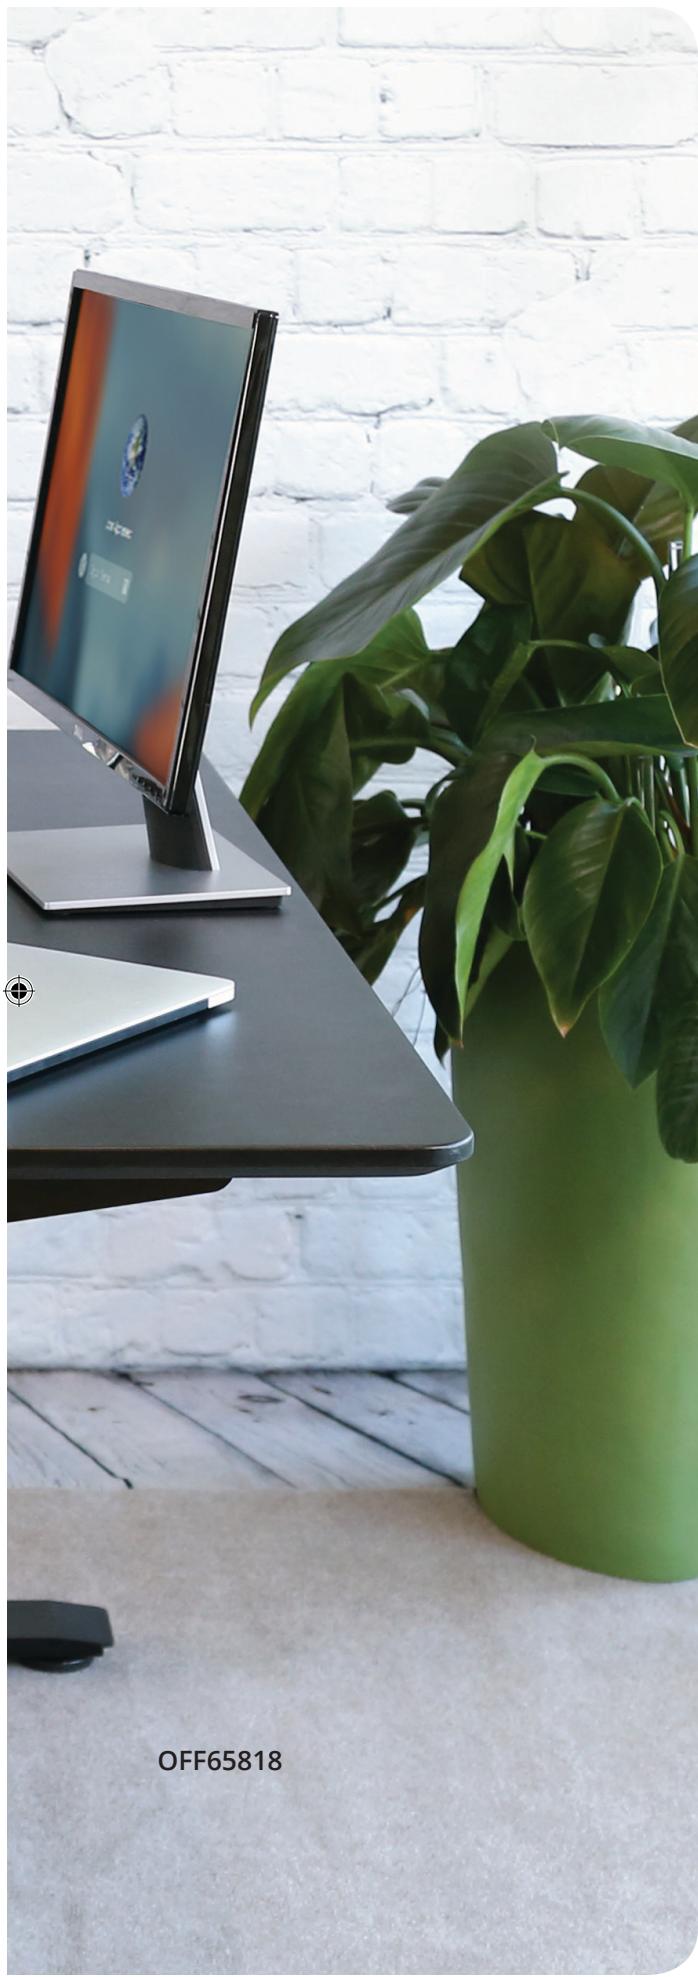

Yes, the office space is changing.

Change with it.

Choose **AIRLIFT®**

"This product has probably added years to my life. Sitting is the worse thing you can do for any long length of time."

airLIFT® Health Benefits

Get active with the AIRLIFT® series of adjustable-height desks!

Our desks are designed to promote active behavior at home and at the office by making it possible to adjust between sitting and standing throughout the day without losing productivity. Sit-to-stand desks have been shown to reduce sedentary behavior in the workplace when they're available. Give yourself the opportunity to stand up while working and improve your health little-by-little each day. Stand up for your health.

Go AIRLIFT®

Where to Use

Government

Outfit meeting rooms and offices with versatile, height-adjustable, sit-to-stand desk options.

Corporate Office

Easily add height adjustability to a cubicle with a sit-to-stand workstation, or upgrade the office with an electric height-adjustable standing desk.

Home Office

Turn any room into a place of business with a pneumatic, mobile, height-adjustable desk or stationary electronic height-adjustable standing desks.

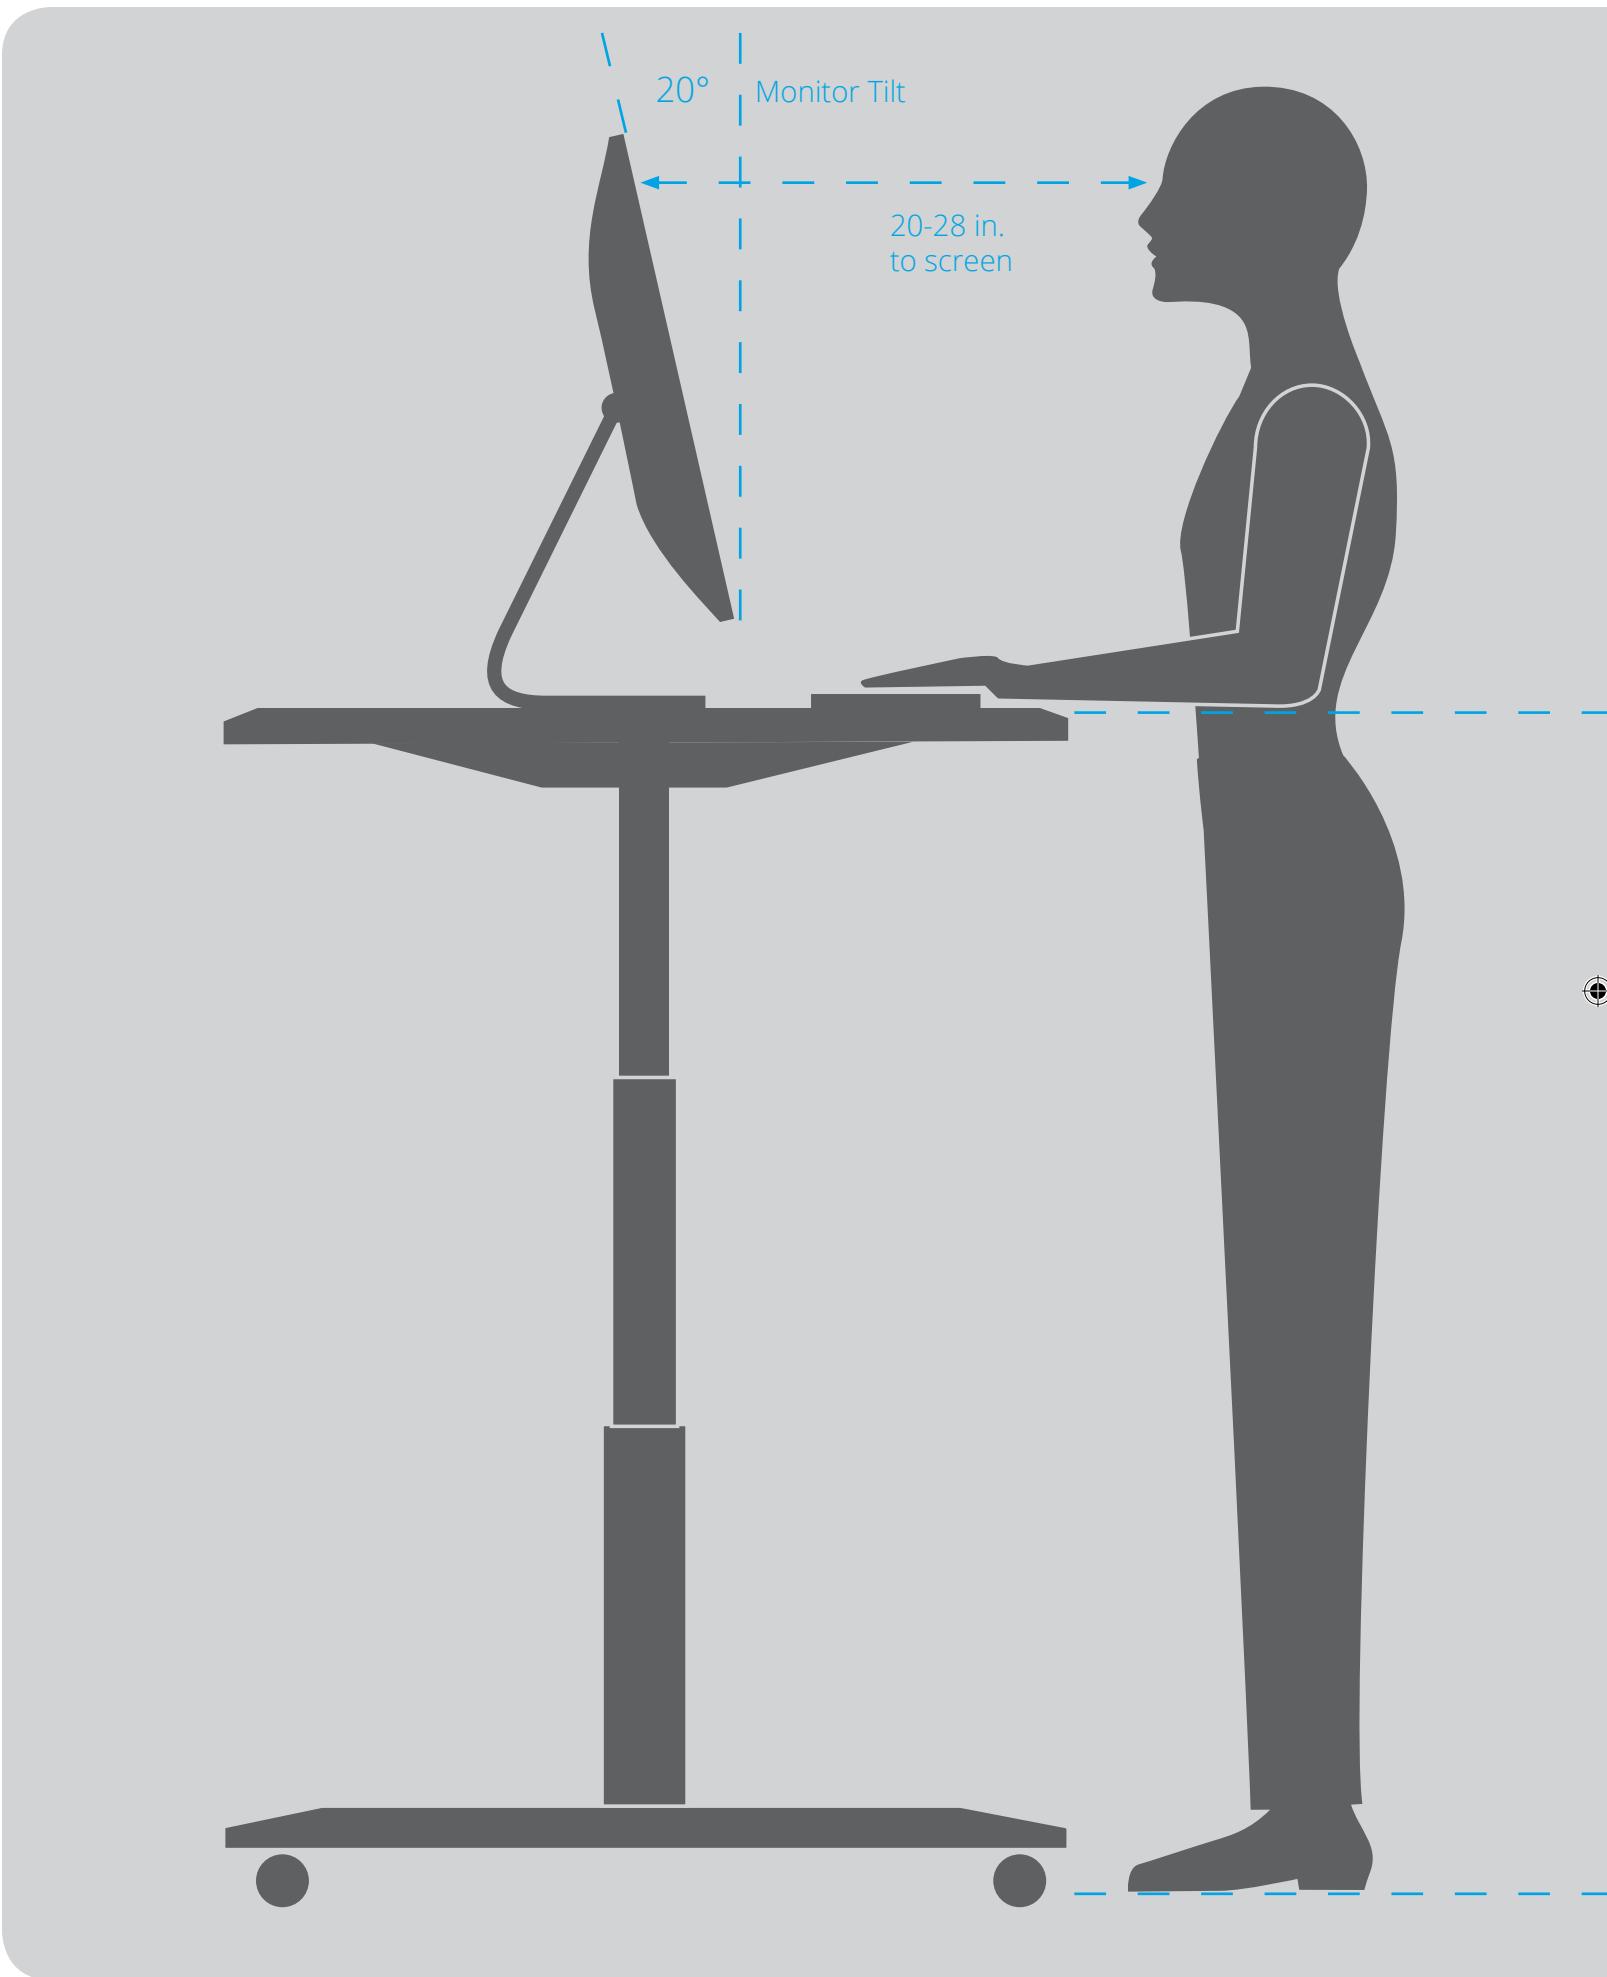

Education

Podium-style tilting desk tops that roll, or fast-lifting pneumatic mobile desks make an excellent addition to classrooms at any level of study.

Healthcare

Simple to assemble and easier to use mobile tables, work stations and electric desks are a great choice for outfitting hospitals, clinics and other institutions.

Ergonomic Benefits

Being healthy begins with being comfortable. A "hunched" or bent-over posture and long-term, high-intensity typing sessions can lead to fatigue in the wrists and hands as well as possible pain. A standing desk mitigates these by rising up to support your natural standing position.

Suggested Standing Position

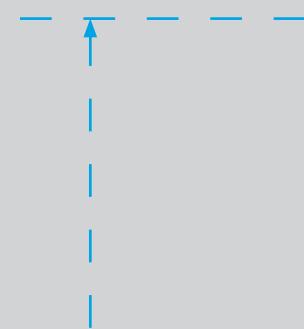

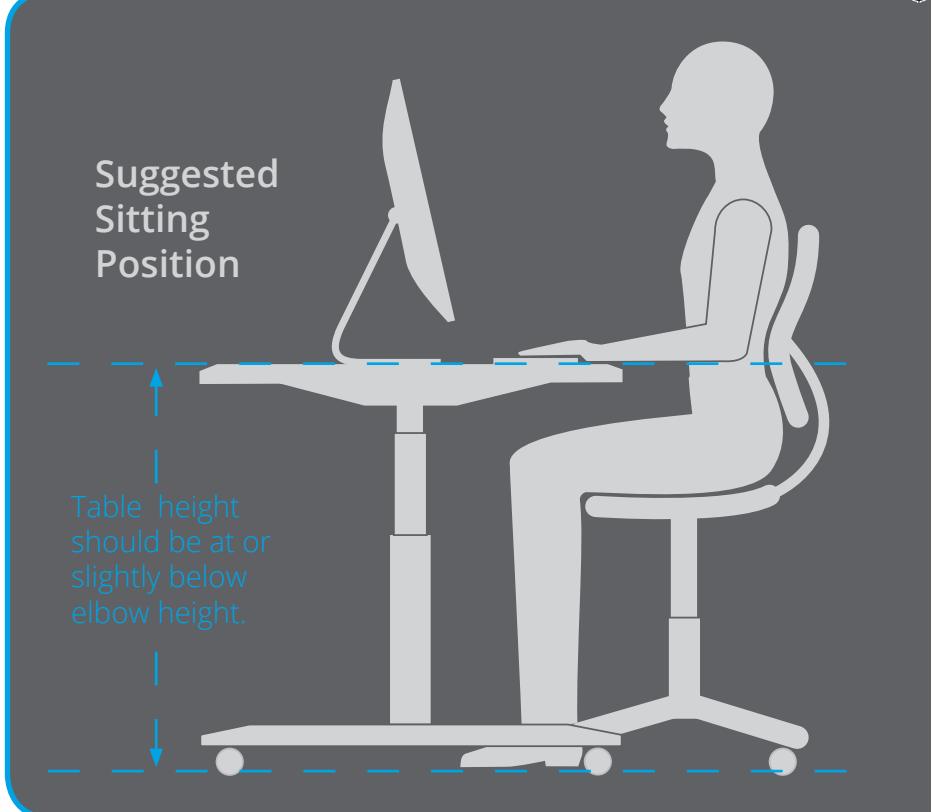

Table height
should be at or
slightly below
elbow height.

Desks can be adjusted to any height between their maximum and minimum height for optimal comfort. For the most comfort, we suggest lifting the table to elbow height.

All AIRLIFT® electric and pneumatic desks rise at least 40 inches high and offer the most range for the widest variety of users. The AIRLIFT® S2 rises to 48.4 inches or approximately 4 feet high. Upgrade to the AIRLIFT® S3 for a desk that rises higher (to 51.6 inches) and descends lower (to 25.6 inches) than any other AIRLIFT® sit-stand desk. That extra range ensures that shorter and taller people can comfortably use the desk their way.

Suggested Sitting Position

Table height
should be at or
slightly below
elbow height.

"This desk is BEAUTIFUL, sturdy, spacious, and transitions nicely from sitting to standing."

Electric Height-Adjustable Standing Desks

The AIRLIFT® S2 and S3 Electric Height-Adjustable Standing Desk series is designed to be elegant and easy-to-use. Available in a wide variety of color tops and base combinations, and designed for simple assembly and installation, the AIRLIFT® S2 and S3 series follow in Seville Classics' tradition of user-focused home and office products.

Powerful dual motors provide smooth movement when adjusting the top even while loaded. The all-steel base provides strength without sacrificing stability, speed, or durability. Lifting or lowering the desk is as easy as pressing a button. Store up to 4 heights on the digital memory controller for reliable readjustment through the day.

Our desks are topped with AIRLIFT® Ergo Table Top. Work in comfort with the desk that curves around you for a more user-focused workplace. A sleek profile and ultra-durable 3-D laminate keeps the desk looking good when you're working hard.

Ergo Table Top

Ergonomic Curve

Curved table top allows users to stand closer to the table while working for a more "you" focused workspace.

At its heart, the AIRLIFT® series is designed to promote healthy ergonomics and an active lifestyle, easily and beautifully. The table top blends smart design cues with comfort enhancing features like the smooth curving ergonomic edge.

"You" Focused Design

Be the focus of your workspace. The curved edge lets users pull in closer, making it easier to reach all corners of desk. More usable space means more utility when using wide screens or working with large objects.

Tops are constructed of MDF and finished with 3-D laminate in a variety of colors. Beveled bottom edges give the top a slim and elegant profile while also making the desk more comfortable to use while lowered.

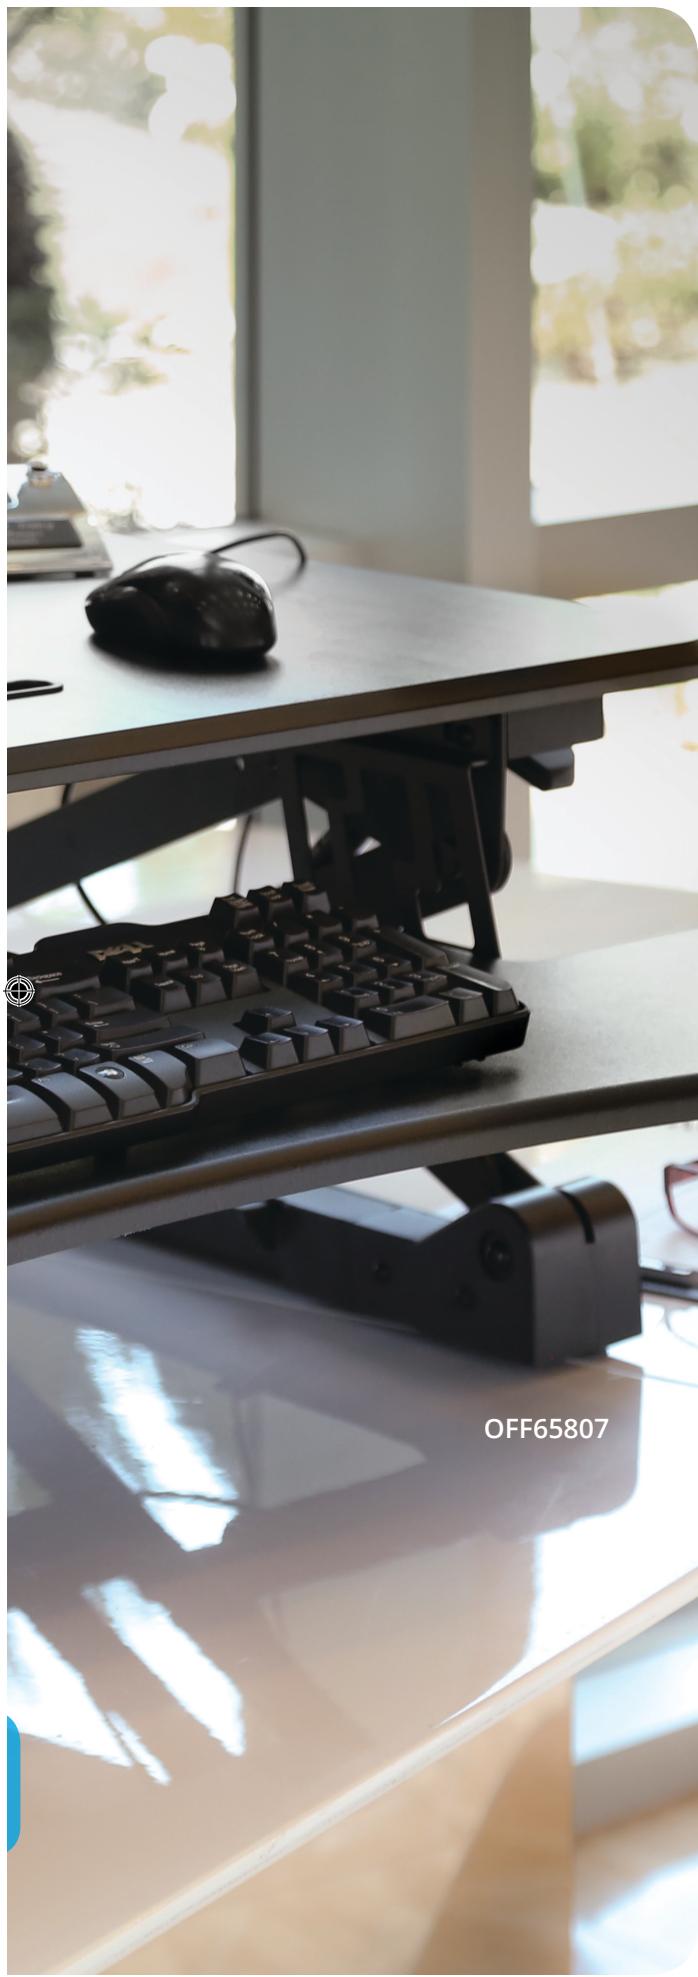

All tops include pre-installed anchors for use with the AIRLIFT® S2 and S3 standing desks, and can be purchased together in the color combination of your choosing.

Be the center of your workspace with the AIRLIFT® Ergo Table Top.

★★★★★ "I bought this for work; it is amazing there are some days I am in the office all day. I can not sit the whole time with my back hurting. Since I purchased this, two other employees have purchased it themselves."

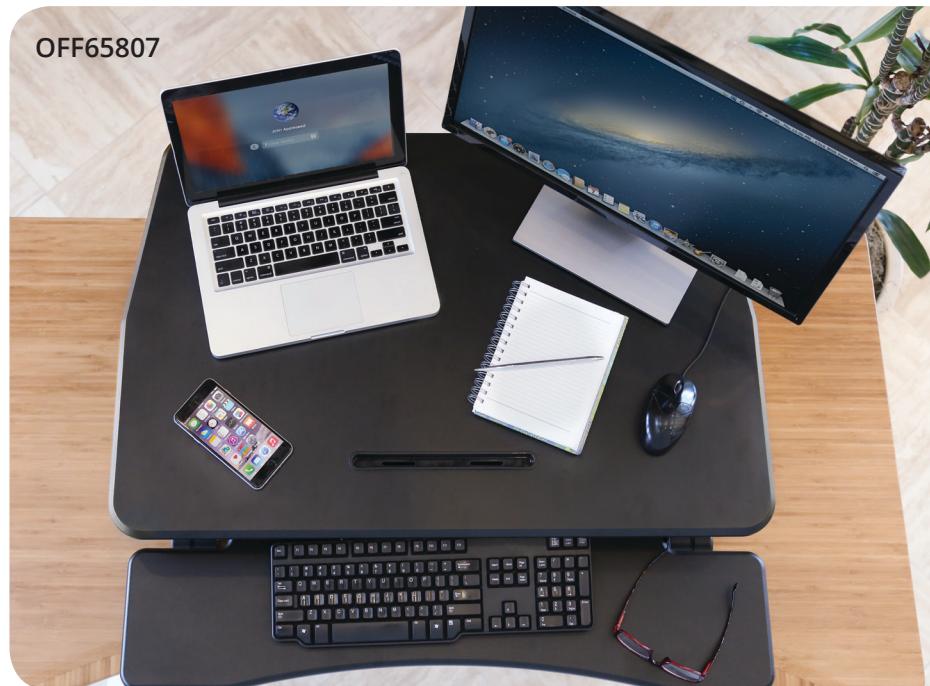

Pneumatic Sit-to-Stand Converter

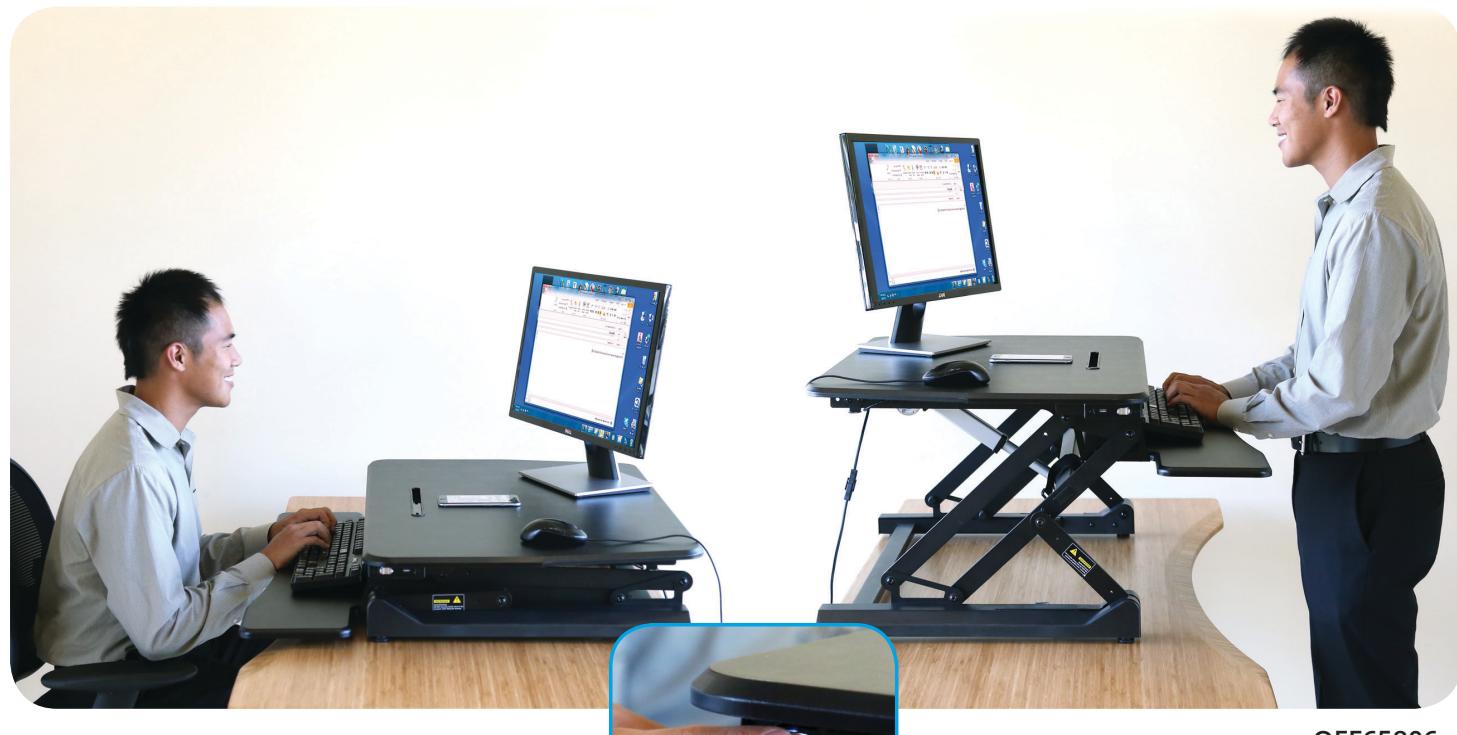

Easily transform any desk into a height-adjustable workspace with the AIRLIFT® Pneumatic Sit-to-Stand Adjustable Desktop Converter. We've designed the AIRLIFT® workstations to be easy to setup and easier to use. No plugs, no buttons, no hassle. Simply unpack and get to work.

Go with the AIRLIFT® Pneumatic Sit-to-Stand Adjustable Desktop Converter for a fast and easy height-adjustment option. A simple pull of the AIRLIFT® levers lets the top vertically lift more than 13 inches with minimal setup. Install the included keyboard tray to turn the converter into a fully-functional two-tier workstation, perfect for offices and desktop computing environments.

Top is designed with a built-in stand to keep your smart devices visible (and accessible) while you work. AIRLIFT® sit-to-stand desktop converters are large enough to fit dual monitors, monitor + laptop, and ultra-wide monitor setups.

Designed to be used with desktop computers and in office spaces, each desk includes a keyboard tray and clips for wire management. Make the professional choice and upgrade your office with AIRLIFT®.

"Raises and lowers with ease. I needed a work space to use in my very small home – since I can't put it away out of sight; I also wanted it to look nice."

OFF65800

Pneumatic Mobile Desk

Enjoy the desk designed to go where you do. Equipped with fast pneumatic height-adjustment and large swivel casters, they're the premium option for mobile productivity. Adjusting the top is easy: pull up on the AIRLIFT® adjustment lever to lift or lower the desk to the perfect height in seconds. Lock two of the casters when you need your desk to stay where it is.

The AIRLIFT® Pneumatic Mobile Laptop Desk with its low-profile base is easy to use at home and near furniture. Choose the AIRLIFT® XL for a deeper, wider, more robust mobile desk solution.

Tops are composed of MDF with 3-D laminate in a variety of finishes including: maple, espresso, and white.

No plugs, no motors, no hassle. Go **AIRLIFT®**

OFF65800

Instant Adjustment

Quick and smooth height-adjustment is an AIRLIFT® lever away. A pneumatic cylinder provides the lift when it's time to raise the desk. Adjust from the minimum to the maximum height in roughly one second. Or, take your time and get the height just right for your ideal workspace.

Features

- Generous Work Surface Sizes
- Pneumatic Adjustment
- Wide Sturdy Bases

Manual Height-Adjustable Desk

Meet the desks that started it all. Mobile, height-adjustable, sturdy, Seville Classics' mobile laptop desks are the standard for manually height-adjustable personal desk solutions.

We designed these desks with your home in mind. Low-profile desk bases are designed to tuck underneath furniture for comfortable use while sitting.. Wheels ensure the desks go where you do, while locking casters ensure the stay put when you need them to.

Keep it simple with the original Mobile Laptop Desk. Need more adjustability? Upgrade to the Tilting Mobile Laptop Desk Cart for a desk with an adjustable top that's perfect for use with laptops or as a music stand, podium and more. Lastly, the Sit-Stand Desk Cart with Side Table offers the most range of any manual sit-stand desk, rising to 40 inches high. It's the perfect height for use while standing and combines mobility with tilting and stationary tops for a simple, but sophisticated, rolling workstation.

Bases are constructed of solid-steel for stability and durability and finished in either satin bronze, or pewter. Tops are composed of MDF with 3-D laminate in a variety of finishes. Assembly is easy with all required tools included.

Features

- Flat, Tilting, and Tilting with Side Table
- Manual Height-Adjustment
- Lock-in Height with Twist Knob
- Low Profile Bases
- Casters (2 locking)
- Easy Assembly

★★★★★ "The adjustable height makes it easy for anyone to use comfortably."

How Are We Different?

With AIRLIFT®, Seville Classics improves on the formula it started with the original Mobile Laptop Desk Cart. We created a desk that was easy-to-assemble, easy-to-use, and easy-to-own, while retaining high-quality construction and materials. The AIRLIFT® series expands on what made the original so great. AIRLIFT® desks are even easier to assemble, with fewer steps. Pneumatic and electric adjustment makes switching heights effortless. We offer desks in a variety of materials from aluminum to MDF, steel and beyond. Contemporary laminate finishes give our tops improved durability against scrapes and bumps in beautiful finishes that suit your home or office.

We believe the benefits of living an active life isn't just a fad. AIRLIFT® desks can keep you moving wherever you choose to be.

Live well. Live AIRLIFT®

Live well. Live **AIRLIFT[®]**
